

EDUCATION

LI Institute of Engineering and Technology	CPI - 9.2/10
Bachelor of Engineering in Computer Science & Technology	Expected April - 2026

EXPERIENCE

PearlThoughts	April 2025 - Present
<i>DevOps Engineer Trainee</i>	Remote, Tamil Nadu
- Automated infrastructure provisioning on AWS using Terraform, reducing manual setup time by 60%. - Built and maintained 5+ CI/CD pipelines with GitHub Actions, achieving 90% faster deployment cycles across environments. - Diagnosed and resolved 10+ critical ECS and Jenkins agent issues, improving deployment reliability by ~75% - Led reverse engineering and architecture recreation efforts for the Schedula Azure migration, mapping 20+ resources/services. - Mentored 5+ backend interns, resolving 10+ build and environment issues, and improving their deployment understanding through hands-on guidance.	
Google Cloud	July 2024 - September 2024
<i>Google Cloud Arcade Facilitator</i>	Remote
- Delivered Google Cloud labs to over 20+ learners, resulting in 25% improvement in lab completions. - Addressed cloud-related queries and provided real-time technical support. - Collaborated with cross-functional teams to improve training materials and knowledge delivery.	
GAOTek Inc.	September 2023 - February 2024
<i>Technical Support Team Lead</i>	Remote, New York
- Led a team of 10+ interns, assigning tasks and ensuring project deadlines. - Reviewed technical files, compiled resources, and reported updates to upper management. - Resolved technical issues, maintaining professionalism and problem-solving under pressure.	

KEY PROJECTS

Strapi CMS Deployment on AWS Docker, Terraform, AWS ECS, AWS ECR, AWS VPC, GitHub Actions, CloudWatch, Strapi.js GitHub	
- Automated Strapi CMS deployment on AWS ECS Fargate with Terraform, achieving full Infrastructure as Code (IaC) and improving deployment speed and reliability. - Developed CI/CD pipelines using GitHub Actions, reducing manual operations by 80% through automated Docker builds, ECR pushes, and ECS deployments. - Provisioned scalable AWS infrastructure (VPC, ECS Cluster, ALB, CloudWatch) to ensure 99.9% system uptime and high availability. - Configured CloudWatch Logs, Metrics, and Alarms for real-time monitoring of container health, CPU/memory usage, and network performance.	
Medusa E-commerce Deployment on AWS ECS Docker, Terraform, AWS ECS, AWS ECR, AWS VPC, Medusa.js (Node.js) GitHub	
- Containerized a Medusa.js application using Docker, achieving 100% reproducible builds across environments. - Automated deployment of 5+ AWS resources (ECS Cluster, Task Definitions, VPC, ECR) using Terraform modules. - Improved deployment scalability by 40% using Fargate serverless architecture services.	
FinGenie - Expense Tracker AWS Amplify (Next.js), Node.js, PostgreSQL, S3, Cognito, EC2 Live GitHub	
- Built a scalable financial platform using AWS Amplify, EC2, RDS (PostgreSQL), S3, and Node.js, supporting 99.9% uptime and handling 1000+ API requests/day. - Secure authentication and authorization via AWS Cognito and API Gateway, reducing unauthorized access incidents by 90%. - Managed cloud infrastructure with VPC configurations across 2+ availability zones, ensuring high availability and data security. - Optimized database queries and backend API performance, improving data retrieval times by 40% and reducing latency.	
A-Z Dog Care React, Django, Python, Machine Learning, TensorFlow, Leaflet GitHub	
- Built a responsive full-stack web application with interactive map routing using React, Django and Leaflet API. - Developed e-commerce functionalities including service listings, cart, checkout, and order management. - Built a machine learning dog breed recognition model (ResNet_v2 + OpenCV) with 80%+ accuracy.	

SKILLS

Languages: Python, Java, C++, JavaScript Database: PostgreSQL, MySQL, MongoDB Web Technologies: Node.js, Django, React.js, Next.js, Express.js, HTML5, CSS3, Bootstrap, Tailwind Cloud & DevOps: AWS, Google Cloud Platform, Docker, GitHub Actions, Terraform AI & Machine Learning: TensorFlow, OpenCV, Scikit-learn, ResNet, Computer Vision, Model Deployment Tools & Technologies: Git, GitHub, VS Code, Postman Networking & Systems: TCP/IP, System Design, UNIX/Linux, Windows Other Skills: Problem Solving Skills, Verbal Communication, Team Leadership, Attention to Detail	
---	--

CERTIFICATIONS

AWS Cloud Technical Essential - Amazon (via Coursera)	MySQL - Meta (via Coursera)
Linux Shell Scripting - IBM (via Coursera)	Data Analysis for Machine Learning - IBM (via Coursera)
TCS iON Career Edge - Soft Skills Training	Building Gen AI-Powered Applications with Python - IBM

ACHIEVEMENTS

CODEFORCES Max Rating - 1024	LeetCode Max Rating - 1492	5 STARS at HackerRank (Python, C++, DSA)
